

Max World Marketing Sdn Bhd 201101000471 (928605-T)
embarked on its journey as a boutique trading
establishment, honing expertise in the realm of
Melamine Faced-Chipboard (MFC), Particle
Board, and Medium Density Fiberboard (MDF),
meticulously curating panel materials tailored to
the discerning preferences of our clientele.

Our Mission

To deliver innovative solutions that exceed
customer expectations, drive sustainable growth,
and contribute to a better world.

Our Vision

To create sustainable and environmentally
friendly interior design total solutions that inspire
and improve the spaces we live and work in.

OUR MILESTONES

Glistening Milestones and still counting

2011

► **Max World Marketing Sdn Bhd** 201101000471 (928605-T)

- Established in 2011, we offered a wide range of products including Melamine Faced Chipboard (MFC), Melamine Faced Fiberboard (Melamine MDF Board), Plywood, PVC Foam Board, High Pressure Laminate (HPL), P.E.T Board, as well as Furniture Hardware and Accessories. We are one of the leading suppliers in Malaysia's furniture and woodwork industry.
- Established branches **Max World Marketing (Ipoh) Sdn Bhd** 201401015142 (1091229-P) in 2014, **Max World Marketing (Rawang) Sdn Bhd** 201801034667 (1296694-P) in 2019, and **Max World Marketing (Balakong) Sdn Bhd** 201901042044 (1351374-T) in 2020.

2019

► **Max World Manufacturing Sdn Bhd** 201101032212 (960347-V)

- Max World ventured into MFC production with state-of-the-art facility, this allows Max World to further strengthen its competitive advantage in the market.
- Max World introduced the first Non-Added Formaldehyde Melamine Faced Chipboard in Malaysia and South East Asia, named **ECONAF**. The unique characteristic of **ECONAF** has made itself top of the range in the market.
- As a result, Max World acquired the recognition from Green Label (Singapore), Eco-label (SIRIM), My Hijau, Trusted Brand Award (Metropolitan'19) and Green Dot Award (Archidex'19).

2022

► **Max World Customize Sdn Bhd** 200501032528 (714666-X)

- Max World ventured into project-based cut-to-size cabinetry manufacturing. Formerly known as Kesan Tulin Sdn Bhd, the company is committed in providing solutions through the advancement of technology and innovation. Its production facilities include panel saws, CNC woodworking machinery, nesting, and edging machines, to name a few.

► **Max World Idzign Sdn Bhd** 202201031746 (1477443-H)

- Max World owns the full brand ownership of **idzign** HPL, a leading brand that established since 2012.

2023

► **Max World Aristone Sdn Bhd** 202301041227 (1535146-H)

- Max World has expanded into stone industry, providing top-notch natural and engineered stone materials for a wide range of applications, including kitchen tops, counter tops, vanity tops, wall cladding, flooring and customized furniture surfaces.

2024

► **Perceptive Profile Sdn Bhd** 199401043070 (0328758-P)

- To value-add in to our comprehensive selection of PVC edge banding, which we are venturing into the manufacturing of edgeband upon any special request and requirements.

2025

► **Issential Logistic Sdn Bhd** 200501027913 (0710047-H)

- Malaysia-based logistics company specializing in comprehensive transportation support services, aiming to deliver efficient and reliable supply chain solutions.

DUO LUXE

One Colour. Endless Possibilities.

Blending form and function, the DUO LUXE Collection features **idzign High-Pressure Laminate (HPL)** and **Max World Melamine Faced Chipboard (MFC)** in perfectly matching colours, giving designers the power to craft curves, cabinets, and coordinated spaces with ease.

ONE colour, TWO materials. Infinite design potential.

MAXPLY

Sustainable Strength for Timeless Designs

Max Ply is a premium decorative plywood available in 4mm, 15mm, and 18mm thicknesses. Designed for durability and sustainability, it is an ideal choice for high-quality construction and furniture projects. Its direct hot press production process enhances the bond between layers, particularly with melamine paper, ensuring superior strength. Reinforced with an eucalyptus core veneer, Max Ply offers exceptional stability, making it a dependable solution for even the most demanding applications.

TECHNICAL INFORMATION	
Plywood Type	Multiply (9 to 11 ply)
Thickness	4mm, 15mm, 18mm
Standard Size	1220mm x 2440mm
Formaldehyde Emission	ENF
Production Process	Direct Hot Press. (No Secondary Cold Press Process)
Advantages	Bonding of melamine paper with the multiply are much stronger as compared to secondary cold-press with melamine thin ply.
	4mm-Single Sided, 15mm & 18mm-Double Sided.
	Full Eucalyptus Core Veneer + Engineered Veneer

All images reflect included specifications:

ENF 4_{mm} 4' x 8' (Single Sided) - All Max Ply colours are available in stock
ENF 15_{mm} 4' x 8' (Double Sided) - Available upon request

ENF 18_{mm} 4' x 8' (Double Sided) - All Max Ply colours are available in stock
EDG Edgebands 23_{mm} & 46_{mm} are available

ECO-FRIENDLY & SAFE

This product is made of an eco-friendly product, polyester which does not contain any harmful substance unlike PVC. Fundamentally it contains no plasticizer, an endocrine substance and no toxic gases like dioxins and chlorine when incinerated and it contributes to improve air quality in living surroundings thanks to its outstanding gas barrier property.

PROPERTY	TEST METHOD	TEST VALUE
Weather Resistant	Measure degree of discoloration after being exposed in an accelerated weatherometer for 400 hours.	less than AE2.0
Abrasion Resistant	Measure deformation of surface pattern after executing an abrasion test with Taber CS-10 (1 kg pendulum, 1,000 times by abrasion wheel).	no change observed
Dimension Stability	A test specimen of 100mm x 100mm is attached to an aluminum plate and measure clearance after storing 48 hours at 65°C.	no detachment observed
Thermal Resistant	Adhesion behavior is observed at the same test conditions as above.	no fusion adhesion observed
Moisture Resistant	Adhesion behavior is observed after storing 30 days at 90% RH.	no defect observed

COMPARISON WITH OTHER SURFACE MATERIALS
